## Haddon Township School District

## 2022 <br> Report of State Assessment Data

Haddon Township
Public Schools
Where Students Thrive

## State Comparative View

- How does Haddon Township compare with statewide averages?
- Which grades, subjects, and subscores performed well and which areas experienced content loss?
- How do multiple benchmark assessments, state and local, paint a picture of student performance?

## SUBGROUP PERFORMANCE

- The New Jersey Department of Education and the ESSA accountability plan contain sample size limits of:
- $\mathrm{N}=20$ for school and district accountability (previously 30)
- $\mathrm{N}=10$ for reporting
- The rationale for establishing sample size boundaries is to assure statistical validity and reliability while making sure that districts have information helpful in addressing the needs of students.

## NJDOE Subgroup Statement

"Conversations with stakeholders revealed diverse opinions about balancing the goals of ensuring accuracy and stability in our data as compared to including as many subgroups as possible in our accountability system. The NJDOE attempted to balance both perspectives by setting a minimum $n$-size of 20 students for accountability. At this n-size, thousands more students will be included than under the previous minimum n-size of 30; and the NJDOE expects that compared to a lower n-size, school performance will not drastically fluctuate based on a few students. New Jersey will maintain 10 as its minimum $n$-size for school and district reporting."

## Subgroups

in

## Haddon Township

- Beginning with the child in mind, we are intentional about focusing on:
- Identifying instructional opportunities with targeted interventions
- Removing barriers to ensure equitable access to programming
- Providing an instructional program appropriate, with acceleration and remediation supports, for individual students

## Dynamic Learning Maps (DLM)

- Dynamic Learning Maps ${ }^{\circledR}\left(\right.$ DLM $\left.^{\circledR}\right)$ assessments are designed for students with the most significant cognitive disabilities for whom general state assessments are not appropriate, even with accommodations. DLM assessments offer these students a way to show what they know and can do in mathematics, English language arts, and science.
- https://dynamiclearningmaps.org/about/tests
- N/A-2021/22 School Year One student in category Opted Out
- Preliminary Scholastic Assessment Test (PSAT)
- Provided by the district for all students in Grades 10 \& 11
- Mathematics
- Evidence-based Reading \& Writing
- Practice for the SAT and an alternate option to meet current graduation requirements until 2025
- Students receive personalized feedback to prepare for the SAT
- Score range: 320-1520

## Other Assessments

SAT

- Scholastic Assessment Test (SATs)
- Evidence-based Reading and Writing
- Mathematics
- Writing (optional since 2017)
- Recognized as key indicator of a high school's standing when compared to other districts; non-mandatory
- One of top three college/university admission factors in additional to high school grades and strength of schedule/courses.
- Score Range: 400-1600
- ACT test data is not currently accessible for 2021.

Expected in coming months

## PSAT Data

## 2022 AP Highlights

- Total AP Tests Taken: 127
- Tests with a score of 3 or better: 107 tests
- $84.25 \%$ of tests taken resulted in a score of 3 or better
- HTHS Students Taking At Least One AP Test: 68

57 of the 68 earned at least a score of 3 or better

- Percentage of HTHS students earning at least a 3 or better 83.82\%

## AP Tests

| Subject | Students Tested |  | Scoring 3 or Better |  | \% Scoring 3 or Better |  |

## Graduation Rate

## 2021/22 Graduation Rate

$$
94.2 \%
$$

## Summary

- Baseline Data Year

2022/23 data compared to 2021/22 will provide a better comparison

- Haddon Township students outperformed the state in Math and ELA with the exception of Grades 7-9 ELA.
- Less of a COVID slide
- History of students outperforming in ELA
- Math was the primary focus; targeted interventions have been beneficial
- Continue making those strides with an intentional, targeted focus on improvement opportunities in ELA (MS \& HS, Grades 8, 9, \& 10)

## Now What?

- How does Haddon Township compare with District Factor Group (DFG) peer districts with similar socioeconomics?
- Looking at tailored reporting, what patterns and trends can be identified to assist with the creation of targeted learning opportunities to address deficiencies?
- How can we make data actionable for teachers and administrators?
- In turn, how can we increase data driven instruction and help our teachers better meet the needs of our students?

## GOING FORWARD

- District
- Continue to provide means and opportunities by which teachers and administrators can more easily access and analyze a variety of data
- Example: Utilize LinkIt ELA and Math benchmark data, in conjunction with local assessment data, with a targeted focus on growth
- Compare, plan and make focused instructional decisions to support student growth and achievement in all areas
- Focus on targeted instruction along with professional development and coaching

## - High School

- Continued to focus on learning intentions and success criteria
- Continue to provide individual, small group and whole class support in order to support every student's ability to meet the assessment requirements for graduation
- Ensure that a variety of question types are utilized within the context of regular instruction and classroom experiences

## GOING FORWARD (cont')

## - Middle School

- Math
- Implement the new math program with fidelity with opportunities for teacher support through professional development
- Continue to increase statistics and geometry exposure at the middle school level

## - Language Arts

- Provide additional rich opportunities for students to read, analyze and write about what they are reading, including informational text
- Ensure that students continue to engage in deep analysis of fiction texts to support their ability to identify and infer the author's meaning

## GOING FORWARD (cont')

## - Elementary Schools

## - Math

- Ensure a focus on "measurement and data" and "operations in base 10"
- Additional focus on fractions in $3^{\text {rd }}$ grade
- Review the scope and sequence for Math in Focus; align with LinkIt benchmark results and identified NJSLA priorities
- Explore ways to incorporate math fact fluency

## - Language Arts

- Provide additional opportunities for students to engage in literary analysis, particularly in terms of comparing texts and providing evidence-based responses
- Incorporate additional ways in which strategies for inferring and identifying theme may be used throughout content areas

## Thank You!
